13 There are certain points of doubt & difficulty in the case of these Notifications in regard to minor municipalities

The first is that as the draft amending Municipal bill is not yet passed into law, the Notification cannot refer to the class of Municipality but can only say that it is constituted into a permanent Municipality. This is done in the draft Notification

Until the bill is passed into law, the effect of the Notification will be that all the provisions of the Municipal Ordinance will apply to these minor Municipalities - which, of course, has never been contemplated

The 2nd point is that by Constituting these Minor Municipalities from 1st Sept= no sufficient time will be given for (a) recruitment of the personnel of the Council, (b) issue of lists of Voters applicable & not applicable to the Minor Municipal Councils (c) issue of special rules for minor municipal Councils including rules of ~~voting~~ Election

The third point is that questions in regard to opening balances will have to be settled in the case of Towns converted into Minor Municipalities by the Local Government. These questions are of a routine nature & will be referred to in the reference file below in which a similar question was
